3. A retrospective: ERASMUS in the EU

35 years - European Success Story
Commissioner for Innovation, Research, Culture, Education and Youth, 
Mariya Gabriel:

"Erasmus+ is a true European success story. The numbers speak for themselves: by now, almost 13 million participants have been able to learn, work or train abroad. Every year, more than 600,000 Europeans make use of the opportunities Erasmus+ offers. And they all tell us the same afterwards: that the programme is life-changing. Since its creation in 1987, Erasmus+ raises new generations of educated, trained, committed Europeans, connected beyond borders. And that truly is a reason to celebrate."
3. ... more than you’d expect

> 90% of the students reported an improvement in their soft skills

95% reported to have learned to better get along with people from different cultures

30% of Erasmus alumni have a life partner with a different nationality

4. ERASMUS+ structure

Number of places apply per academic year – not per semester
6. What else to consider?

- Different offers for BA and MA (see columns in the table that can be filtered)

- No application possible for places that do not relate to the students own field of subject

- Students are allowed to exchange via their second study subject or under exceptional circumstances via „related“ subjects, e.g.
  - industrial chemistry via economics, business, chemistry
  - industrial engineering via economics, business, electrical engineering
  - biology via the Institute of Ecosystem Research
  - English via the German department

- Faculty of Engineering: students are more flexible in the choice of places
6. What else to consider?

- Start and end of the academic year at the host university (challenging/difficult e.g.: start of spring terms at Scandinavian universities)

- Exam periods at CAU collide often with start of semesters abroad

- Many universities in Europe offer a wide variety of classes in English (especially Scandinavia, Eastern Europe, Benelux countries)

Conclusion:
Be open minded for new destinations – increase your opportunities and choices
6. Application process at Kiel University

1. Choose a host university from the list of partner universities

2. Get in contact with the departmental coordinator/institute (PB)

3. Application at the institute:
   • take into account the different dates of application and requirements
   • have a look at the ERASMUS webpages of the departments
   • confirmation or rejection through the PB (departmental coordinator)

4. Registration in the online application portal of the International Center (IC) after confirmation from the PB

5. Nomination at the partner university via IC

6. Application at the host university by the student
6. Selection criteria

1. Category (priority):
   Selection in the departments according to the following criteria:
   - Professional competence: previous grades, curriculum, course selection, recognition
   - Language competence: at least B1 (at the time of application no language certificate is needed by the International Center; it might be different in the departments)
   - Personal suitability
   - First come – first serve sometimes
   - Individual criteria

2. Category:
   Consideration of students without recognition only if places are available
6. Important dates and application deadline

- Application portal will be opened on: **15.01.2024**
- Deadline for application of the next academic year: **01.02.2024**
- Applies to applications for the winter term 2024/25 and the summer term 2024

**Please mind the different application deadlines in the departments!**
